

ZONING CODE 17.129

17.129 FIRE, GLARE, HEAT AND EXPLOSIVE HAZARDS. All of the activities involving the manufacturing, utilization, processing or storage of inflammable and explosive materials shall be provided with adequate safety devices against the hazard of fire and explosion, and with adequate firefighting and fire-suppression equipment and devices that are standard in the industry. All materials that range from active to intense burning shall be manufactured, utilized, processed and stored only in completely enclosed buildings which have incombustible exterior walls and an automatic fire extinguishing system. Additionally, no unsanctioned activity shall emit glare or heat that is visible or measurable outside its premises, except activities in the industrial districts which may emit direct or sky-reflected glare which shall not be visible outside their district. All operations producing intense glare or heat shall be conducted within a completely enclosed building. Exposed sources of light shall be shielded so as not to be visible outside their premises.
